

The Lioness Game Rules

The Lioness is a 6 reel by 4 rows, 40 lines game featuring Amanda Nunes, MMA super star, the fight feature, an accumulating multiplier free spins, and a Lioness Link.

The Paylines are evaluated left-to-right on adjacent reels starting on the leftmost reel. Only the longest matching combination per winning line is paid. Simultaneous or coinciding wins are added together.

All wins occur on lines only, except the Lioness bonus scatter and the free spin scatter which award bonuses for landing 3 or more of the same scatter anywhere.

Fight Feature

When one of the 3 Amanda symbols lands in a stack of at least 3 full adjacent columns or more that result in a winning spin, the fight feature will trigger. When triggered, Amanda Nunes will perform consecutive attacks awarding a random multiplier to the current win. The random multiplier ranges depend on the amount of full stacks that landed during the feature:

| Amount | Multiplier |
|---------------|------------|
| 3 Full Stacks | 2x – 4x |
| 4 Full Stacks | 2x – 5x |
| 5 Full Stacks | 2x – 6x |
| 6 Full Stacks | 2x – 7x |

Multipliers from the feature are only applied to the line wins on the 40 lines and are not carried over to the bonus or free spins.

Fortune Bet – Higher Multipliers

Pay an extra 30% ante to activate more punching power from Nunes during the Fight Feature. When winning on full stacks of 3 or more the fight feature will trigger 100% of the time and the multiplier ranges are enhanced as follows:

| Amount | Multiplier |
|---------------|------------|
| 3 Full Stacks | 3x – 6x |
| 4 Full Stacks | 3x – 7x |
| 5 Full Stacks | 3x – 8x |
| 6 Full Stacks | 3x – 9x |

Multipliers from the feature are only applied to the line wins on the 40 lines and are not carried over to the bonus or free spins. Fortune Bet may not be available on all markets.

Lioness Link Bonus

Land 4 or more [Lioness Scatter] anywhere on the reels to trigger the Lioness Link Bonus. There is not a set award for triggering the bonus, but all triggering [Lioness Scatter] symbols will each reveal random credits or change colour to reveal corresponding prizepot colour win. All other symbols will disappear, and the bonus will start with 3 initial respins on remaining reels. The number of

remaining respins reset to 3 each time at least one more [Lioness Scatter] symbol lands. Each additional [Lioness Scatter] that land will also either reveal credit amounts or change colour to reveal corresponding prizepot colour win.

The awards for each lioness symbols include

Random Credit amount 1 – 10x

Mini Prizepot 20x

Minor Prizepot 50x

Major PrizePot 100x

The free spins ends when there are no more respins remaining or after all 24 positions have been filled. If all 24 positions are filled the Grand Prizepot of 1000x is won in addition to the other awards accumulated during the bonus. All Prizepots can be awarded more than one time except for the Grand Prizepot which is only awarded once if all 24 positions are filled.

Free Spins

Land 3 [Free Spins Scatter] symbols to trigger the free spins bonus. 5 Free spins are awarded with extremely long stacks of Amanda appearing on the reels every spin. When 3 or more full stacks land with a winning symbol, the fight feature as described above always triggers and the multiplier awarded from each spin is persistent throughout the free spins. The multiplier amount accumulates through the feature and is reset after the free spins ends. Fortune Bet has no effect during the free spins. Free spins scatters do not award payouts. The Free Spins can not be retriggered. Freespins are paid according to the bet amount prior to entering Free Spins.

It is impossible to trigger the Lioness Link bonus and the free spins on the same spin.
